

SLACKER RADIO DELIVERS THE ABSOLUTE BEST IN PERSONALIZED RADIO FOR PEOPLE WHO EXPECT MORE.

We've been reinventing radio for **over a decade** by blending a team of forward-thinking music curators and content programmers with cutting-edge analytics. With a library of over **13 million songs** (and over 55 billion plays to date), Slacker provides a seamless music discovery experience studded with world class hosts to deliver **uniquely personalized entertainment experiences**:

- Discover **over 500 expertly crafted stations**, covering every genre and sub-genre imaginable, with opt-in content updates from our team of experts as well as premier partners such as **ABC** and **ESPN**.
- Explore a wide assortment of **exclusive episodic shows**, highlighting the latest music news, weekly chart countdowns and more.
- Dive into artist-hosted stations featuring superstars ranging from **John Legend** to **Luke Bryan** to **Kelly Clarkson** to **Alice Cooper**.

Listen to Slacker via mobile, web, or consumer electronics platforms, with carrier billing integration from partners like **Verizon**, **Sprint**, **T Mobile**, **US Cellular**, and **Telus**.

Slacker is also the exclusive music streaming service featured in the dashboards of all **Teslas**, as part of one of the most significant automotive footprints in the industry, which also includes **Toyota**, **Lexus**, **Honda**, **Ford**, **Porsche**, **Chrysler**, **Jeep**, and **Dodge**.

Pick a song or start a station, then **brace yourself for "more:"**

- More **best-in-class human curation**: Our team of curators and content programmers create stations that will make you laugh, cry... and question our sanity.
- More bang for your buck: Slacker's ad-free tier is only **\$3.99 per month**, Pandora costs \$4.99.
- **More features**: Save data and battery life with Slacker's patented offline mode, personalize all sports and news programming, and enjoy real, human hosts from around the world – or turn them off when you want to be alone with your music.

YOU'RE NOT LOOKING FOR A BUNCH OF ONE-DIMENSIONAL PLAYLISTS, RIGHT? RIGHT! SO LET'S DO THIS.

EXPECT MORE.
